(54) Title: ADJUSTABLE SUPPORT FRAME

WO 2005/032446 A1

(57) Abstract: A frame for supporting and moving a load, the frame comprising first and second support legs for supporting said frame on at least one floor; a load support member, extending between the first support leg and the second support leg, wherein the load support member is sized and shaped to be length adjustable; and a trolley, movably mounted on an external surface of the load support member, the trolley and load support member being sized and shaped to permit the trolley to move along the load support member; whereby access to the trolley, without removing same from the load support member, is facilitated.

*For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.*
